

INSTRUCTIONS

IMPORTANT SAFEGUARDS

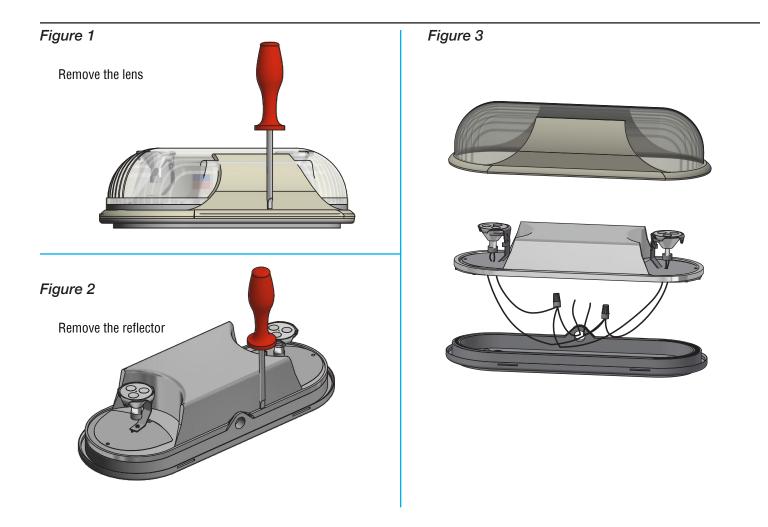

When using electrical equipment, basic safety precautions should always be followed including the following:

1. READ AND FOLLOW ALL SAFETY INSTRUCTIONS

- 2. Disconnect power before performing work on electrical equipment.
- 3. Do not let power cords touch hot surfaces and do not mount near gas or electric heaters.
- 4. Use caution when servicing batteries. Battery acid can cause burns to skin and eyes. If acid is spilled on skin or eyes, flush with fresh water and contact a physician immediately.
- 5. Equipment should be mounted in locations and at heights where unauthorized personnel will not readily subject it to tampering.
- 6. The use of accessory equipment not recommended by BeLuce Canada Inc., may cause an unsafe condition, and will void the unit's warranty.
- 7. Do not use this equipment for other than its intended purpose.
- 8. Servicing of this equipment should be performed by qualified service personnel.
- 9. SAVE THESE INSTRUCTIONS!

INSTALLATION

- 1. Remove the polycarbonate lens by inserting a slotted screw driver into the tabs along the bottom of the assembly (Figure 1).
- 2. Remove the reflector assembly by inserting a slotted screw driver to depress tabs as shown in (Figure 2).
- 3. Mount backplate to mounting surface using appropriate fasteners and washers (supplied by others). Cover fasteners with provided waterproof caps (figure 3).
- 4. Connect DC for 6V, 12V or 24V DC service.
- 5. Position lamps to provide best lighting distribution. Manually rotate or twist lamp to desired position.
- 6. Close lens.

MAINTENANCE

- Clean lenses on a regular basis. NOTE: The servicing of any parts should be performed by qualified service personnel only. The use of replacement parts not furnished by BeLuce Canada Inc., may cause equipment failure and will void the warranty.
- 2. The lamps listed herein when used according to the instructions with this unit are in accordance with the requirements of CSA Standard C22.2, No. 141 Unit Equipment for Emergency Lighting.
